OFFICE OF THE CHANCELLOR

November 16, 2007

The Honorable Rick Perry
Governor of Texas

The Honorable Susan Combs
Texas Comptroller

Mr. John O'Brien
Director, Legislative Budget Board

Mr. John Keel, CPA
State Auditor

Lady and Gentlemen:

We are pleased to submit the Annual Financial Report of Texas State Technical College for the year ended August 31, 2007, in compliance with TEX. GOV'T CODE ANN §2101.011 and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Albert Srubar at 254-867-3956. Susan Vonder Hoya may be contacted at 254-867-3961 for questions related to the Schedule of Expenditures of Federal Awards.

Sincerely,

Bill Segura
Chancellor

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended August 31, 2007

Note 1: Summary of Significant Accounting Policies

Entity

Texas State Technical College (TSTC) System is an agency of the State of Texas and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for Annual Financial Reports of State Agencies and Universities.

TSTC System includes four colleges: TSTC Harlingen, TSTC Marshall, TSTC Waco, and TSTC West Texas, which has campuses in Abilene, Breckenridge, Brownwood, and Sweetwater. TSTC is the only state-supported technical college system in Texas. With a statewide role and mission, TSTC is efficiently and effectively helping Texas meet the high-tech challenges of today's global economy, in partnership with business and industry, government agencies, and other educational institutions. TSTC has high graduation rates, exceptional postgraduate success rates, and an outstanding record in graduating individuals from diverse cultural and socioeconomic backgrounds.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity. The fund designation for institutions of higher education is Business-Type Activity within the Proprietary Fund Type.

Proprietary Fund Types**Business-Type Activity**

Business type funds are used for activities that are financed through the charging of fees for goods or services to the ultimate user. Institutions of higher education are required to report their financial activities as business type because the predominance of their funding comes through charges to students, sales of goods and services, and grant revenues.

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Business type activity funds (proprietary funds), are accounted for on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenues and expenses result from providing services or producing and delivering goods in connection with the proprietary funds principal ongoing operations. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses, and depreciation on capital assets.

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended August 31, 2007

Budget and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act).

Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Net Assets**Assets**

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements. Assets held in reserve for guaranteed student loan defaults are also included.

Inventories

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. The consumption method of accounting is used to account for inventories that appear in the proprietary fund types. The cost of these items is expensed when the items are consumed.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. All capital assets acquired by proprietary funds are reported at cost or estimated historical cost, if actual historical cost is not available. Donated assets are reported at fair value on the acquisition date. Depreciation is reported on all "exhaustible" assets. "Inexhaustible" assets such as works of art and historical treasures are not depreciated. Depreciation is charged to operations over the estimated useful life of each asset, using the straight-line method.

Current Receivables - Other

Other receivables include year-end revenue accruals not included in any other receivable category.

Liabilities

Accounts Payable

Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Current Payables - Other

Payables are the accrual at year-end of expenditure transactions not included in any of the other payable descriptions.

Employees' Compensable Leave Balances

Employees' Compensable Leave Balances represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets. These obligations are normally paid from the same funding source(s) from which each employee's salary or wage compensation was paid.

TEXAS STATE TECHNICAL COLLEGE
(Agency 719)
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended August 31, 2007

Capital Lease Obligations

Capital Lease Obligations represent the liability for future lease payments under capital lease contracts contingent upon the appropriation of funding by the Legislature. Liabilities are reported separately as either current or non-current in the statement of net assets.

Bonds Payable

General obligation bonds and revenue bonds are generally accounted for in the proprietary funds. The bonds payable are reported at par less unamortized discount or plus unamortized premium. Interest expense is reported on the accrual basis, with amortization of discount or premium. Payables are reported separately as either current or non-current in the statement of net assets.

Net Assets

Net Assets is the difference between fund assets and liabilities on the proprietary fund statements.

Invested in Capital Assets, Net of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

Restricted Net Assets

Restricted net assets result when constraints placed on net asset use are either externally imposed by creditors, grantors, contributors, and the like, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets

Unrestricted net assets consist of net assets, which do not meet the definition of the two preceding categories. Unrestricted net assets often have constraints on resources, which are imposed by management, but can be removed or modified.

Interfund Activities and Balances

The agency has the following types of transactions among funds:

- (1) **Transfers:** Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfers Out' by the disbursing fund.
- (2) **Reimbursements:** Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- (3) **Interfund receivables and payables:** Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter, the balance is classified as "Current". Balances for repayment for two (or more) years are classified as "Non-Current".
- (4) **Interfund Sales and Purchases:** Charges or collections for services rendered by one fund to another that are recorded as revenue of the recipient fund and expenditures or expenses of the disbursing fund. The composition of Texas State Technical College's *Interfund activities and balances* are presented in Note 8.

Claims and Judgments

At August 31, 2007, various lawsuits and claims involving Texas State Technical College were pending. While the ultimate liability with respect to litigation and other claims asserted against the College cannot be reasonably estimated at this time, such liability, to the extent not provided for by insurance or otherwise, is not likely to have a material effect on the College.

Rebatable arbitrage is defined by Internal Revenue Code Section 148 as earnings on investments purchased with the gross proceeds of a bond issue in excess of the amount that would have been earned if the investments were invested at a yield equal to the yield on the bond issue. This rebatable arbitrage must be paid to the federal government. The College is entitled to invest its bond proceeds at an unrestricted yield for various temporary periods ranging from six months to three years. This unrestricted earnings period begins on the date of delivery of the bond issue. Earnings on any funds held by the College after this six month period must be restricted to the yield of the College's bond issue unless the College meets certain spending requirements during the six months to three years temporary period. The amount of rebate due the federal government is determined and payable during each five year period and upon final payment of the tax-exempt bonds.

TEXAS STATE TECHNICAL COLLEGE
 (Agency 719)
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended August 31, 2007

The Constitutional Appropriation Bonds, Series 2005 was the only bond issue of the College calculated as having rebatable arbitrage at August 31, 2007. The College recognizes the accrued liability for rebatable arbitrage in the Statement of Net Assets. For the year ended August 31, 2007, the accrued liability totaled \$233,000.00.

Employees' Compensable Leave

Full-time State employees earn annual leave from eight to twenty one hours per month depending on the respective employee's years of State employment. The State's policy is that an employee may carry his accrued leave forward from one fiscal year to another fiscal year with a maximum number of hours up to 532 for those employees with 35 or more years of State service. Employees with at least six months of State service who terminate their employment are entitled to payment for all accumulated annual leave up to the maximum allowed. The College recognizes the accrued liability for the unpaid annual leave in the Statement of Net Assets. This obligation is usually paid from the same funding source(s) from which the employee's salary or wage compensation was paid. For the year ended August 31, 2007, the accrued liability totaled \$5,139,166.51.

The College made lump sum payments totaling \$455,919.23 for accrued vacation and/or compensatory time to employees who separated from state service during fiscal year ending August 31, 2007.

Sick leave, the accumulation of which is unlimited, is earned at the rate of eight hours per month and is paid only when an employee is off due to illness or to the estate of an employee in the event of his/her death. The maximum sick leave that may be paid an employee's estate is one-half of the employee's accumulated entitlement or 336 hours, whichever is less. The College's policy is to recognize the cost of sick leave when paid and the liability is not shown in the financial statements since experience indicates the expenditure for sick leave to be minimal.

Bonds Payable

Bonds Payable obligations are described in detail in Note 13.

Capital Lease Obligations

Capital Lease Obligations are described in detail in Note 6.

Note 6: Capital Leases

Texas State Technical College has entered into long-term leases for financing the purchase of certain capital assets. Such leases are classified as capital leases for accounting purposes and, therefore, have been recorded at the present value of the future minimum lease payments at the inception of the lease. The following is a summary of original capitalized costs of all such property under lease as well as the accumulated depreciation as of August 31, 2007:

Note 7: Operating Lease Obligations

Included in expenditures is the following amount of rent paid or due under operating leases:

Fund Type	Amount
Proprietary, Business-Type Activities	1,257,385.33

TSTC has no non-cancelable operating leases having an initial term in excess of one year.

Note 8: Interfund Balances/Activities

As explained in Note 1 on Interfund Activities and Balances, there are numerous transactions between funds and agencies. At year-end amounts to be received or paid are reported as:

- Interfund Receivables or Interfund Payables – See Below
- Due from Other Agencies or Due to Other Agencies – See Schedule 1A – *Schedule of Expenditures of Federal Awards*, and Schedule 1B – *Schedule of State Grant Pass Throughs From/To State Agencies*
- Due From Other Funds or Due to Other Funds – None
- Legislative Transfers In or Legislative Transfers Out - None

The agency experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfers.

For the Year Ended August 31, 2007

Note 11: Risk Financing and Related Insurance

Texas State Technical College (TSTC) is exposed to a variety of civil claims resulting from the performance of its duties. It is TSTC's policy to periodically assess the proper combination of commercial insurance and retention of risk to cover losses to which it may be exposed.

TSTC assumes substantially all risks associated with tort and liability claims due to the performance of its duties. Currently, TSTC has purchased worker's compensation, auto, property, boiler & machinery, crime, director's & officer's liability insurance, and peace officer bonds. TSTC is not involved in any risk pools with other government entities.

TSTC's liabilities are reported when it is both probable that a loss has occurred and the amount of that loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported. Liabilities are reevaluated periodically to consider current settlements, frequency of claims, past experience and economic factors. There were no significant reductions in insurance coverage in the past year and losses did not exceed funding arrangements during the past three years. Changes in the balances of TSTC's claims liabilities during fiscal 2006 and 2007 were:

	Beginning Fiscal Year Liability	Current year Claims/Changes in Estimates	Claims Payments	Balance at Fiscal Year-End
2006	0.00	0.00	0.00	0.00

On November 24, 1992, revenue bonds were issued by the Texas Public Finance Authority on behalf of Texas State Technical College System issued as Building Revenue and Refunding Revenue Bonds Series 1992 which refunded three issues of bonds then outstanding. The existing bond issues with their respective balances that were refunded were as follows:

Housing System and Auxiliary Services Revenue Bonds, Series 1979	4,750,000.00
Housing System and Auxiliary Services Revenue Bonds, Series 1982	3,065,000.00
Housing System and Auxiliary Services Revenue Bonds, Series 1989	1,700,000.00
Total	9,515,000.00

The average interest rate of the bond issues refunded was 8.1%.

The par amount of the Series 1992 Bonds was \$14,080,000.00, with all authorized bonds being issued. Net proceeds from the Series 1992 Bonds were \$13,520,184.00 after payment of \$386,347.00 in underwriting fees, insurance and other issuance costs. An additional \$1,496,418.00 of sinking fund monies from the Series 1979, 1982, and 1989 was deposited in an irrevocable trust with an escrow agent to provide for all future debt payments on the 1979, 1982 and 1989 issues.

The Series 1979, 1982, and 1989 Bonds are considered fully defeased and the liability for those bonds has been removed from the financial statements.

In Fiscal Year 1994, the remaining \$4,200,000.00 of bonds from the 1979 issue were called and paid thus extinguishing all outstanding indebtedness from the 1979 issue.
