## Administrator's Statement

85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

### 71D Texas State Technical College - Waco

---

In accordance with the instructions, Texas State Technical College (TSTC) submits the following Legislative Appropriations Request (LAR) for fiscal years 2018 and 2019 to the Governor's Office of Budget, Policy, and Planning and the Legislative Budget Board. TSTC's LAR is submitted in a manner consistent with the description of TSTC in Section 135.02 of the Texas Education Code, including an LAR for the System Administration unit and the College's six campuses.

To ensure efficient and consistent operations, TSTC's operations are structured, planned, and managed statewide and, consequently, the respective LAR administrator statements reflect the common administrative statement for each submission. Budget information reflects the resource allocation for each respective operational unit described above.

The budget information for this LAR relates to TSTC Waco.

#### OVERVIEW OF TSTC

The 84th Legislature marked the 50th Anniversary of Texas State Technical College (TSTC, or the College), recognizing 50 years of the College's successes in adapting to technology advances and responding to Texas' industrial workforce needs by placing more Texans in great paying jobs (Place More Texans). As TSTC celebrated the milestone, the College also began closing out an outdated way of doing business. Recognizing that the entire sector of higher education will not survive doing business "the way we've always done it," TSTC has taken initial bold steps towards becoming a transformed version of higher education. This new, transformed college, the "New TSTC," is characterized by:

- o Education First. The College's most powerful dollar is the one spent on the student learning experience. TSTC will continue offering students more choices for mastering technology with recognition that administrative dollars may mean lost opportunities. In other words, TSTC's focus is to manage administrative overhead so as not to diminish opportunities to enhance the student learning experience and generate economic value, or returns, to the State.
- o Return on Taxpayer Investment. The New TSTC seeks the highest yield when determining resource allocations. As TSTC evaluates its growth potential, it closely examines strategic market opportunities across Texas, and harnesses available statewide resources for maximum impact. Recent developments representing this focus include:
  - o Investment in new markets. Investment in increased capacity is focused on those markets with the greatest potential growth prospects; that is, the markets that will generate the greatest returned value to the State. Since 2011, TSTC has expanded operations in three new markets: Williamson County, Ellis County, and Fort Bend County. The industrial workforce needs in these regions have grown rapidly, consistent with the regions' respective rate of population and economic growth. Further, the College has developed product development protocols, instructional program productivity measurement, and proforma analysis capabilities to support the optimization and prioritization of business development opportunities.
  - o Creation of a sales culture. The College is focused on sales, resembling Philip Kotler's statement "The sales department isn't the whole company, but the whole company better be the sales department." The transition to the New TSTC includes shifting people, structures, and systems from the legacy, bureaucratic/agency predispositions, workflows, and mindsets to an integrated-sales directed organization with specific revenue targets, measurement, and accountability systems. Significant investment has been made in prospect outreach and student experience as the students arrive and navigate the workforce development pipeline, including removal of obstacles on their journey.
  - o Business-to-Business. TSTC has significantly increased emphasis in business development on industrial relations initiatives. The range of related enterprises includes increased capacity in incumbent workforce training and contract services, as well as talent management that includes customized workforce placement services.
  - o Expanding Revenue Mix. To make a significant impact on Texas' growing skills gap, the New TSTC must diversify its revenue streams to supplement and expand upon state appropriations to fund a substantial part of its operation. TSTC's financial health will not be secured solely by cost controls and optimization of legacy revenue streams. Entrepreneurial initiatives such as TSTC's industry relations business-to-business division, TSTC's Center for Employability Outcomes (C4EO), and

## Administrator's Statement

85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

### 71D Texas State Technical College - Waco

---

other auxiliary enterprises will expand the mix of revenues for the College. Indeed, statewide revenues will become a key performance metric for TSTC.

- o Results. The New TSTC is driven by results. TSTC's focus on results is reinforced by a shift in the factors that drive appropriations funding as well as TSTC's new entrepreneurial funding pursuits. This results-focus is manifested in following examples:
  - o Returned-Value Funding. The Legislature's adoption of the returned-value funding formula is an early milestone in the building of the New TSTC. With the passage of Senate Bill 1 in 2013 from the 83rd Legislature and the implementation of the new funding model, TSTC became the first college system in the nation funded substantially upon student employment outcomes and not educational activities. The returned-value funding model assesses and rewards TSTC for student job placement and earnings (outcomes) rather than contact hours (time in training). While TSTC's returned-value funding model is not expected to fully shelter TSTC from the pressure on state appropriations, it allows flexibility to innovate its product and expand its mix of revenue streams.
  - o Program Vitality. During fiscal year 2016, TSTC developed the instructional program vitality model. It is a balanced scorecard aimed at measuring the vitality of programs based on four initial performance measures: enrollment, retention, placement, and first-year income of students. The results of these measures will be used to identify continuous improvement opportunities and influence decisions regarding investment in programs including investments in talent, equipment, and program and related capital expansion. This improves the return on the State's investment.
  - o Innovation. The New TSTC is characterized by its courageous innovation. This spirit of innovation is needed because the 21st Century requires a new model for teaching and learning. Technological advances have led to transformational changes in most aspects of life; however, much of the traditions and methods of educational delivery and skill development remain the same. Accordingly, the historical model for higher education will become irrelevant in a matter of years. Like many other industries, the threat to the historical operating model will likely emerge from outside the current higher education industry. The relevance of education providers will depend on their ability to anticipate these changes. Similar to TSTC's approach to the accountability imperative and anticipated state funding issues, the New College will boldly prepare for, innovate, and lead through the sweeping changes that our industry faces.

TSTC's primary innovative initiatives are focused on enhancing the learning delivery process, including the following: development and phase-in of comprehensive competency-based programs, microcredentials/badges, multiple-entry/multiple-exit point (block scheduling) strategy, and software services and customer-facing applications designed to close skill gaps (SkillsEngine developed by the Center for Employability Outcomes).

### SIGNIFICANT ISSUES FUNDAMENTAL TO THE BUDGET REQUEST

#### Return on Capital

The efficiency and effectiveness of higher education is questionable. TSTC is committed to the notion that higher education, and technical education in particular, can be far more efficient and effective, requiring bold action to generate returns expected of related stakeholders.

- o Returned-Value Funding Formula. The impact of the returned-value funding formula policy change remains in the spotlight of policy groups, higher education associations, regulators, rating agencies, and others. This funding method, implemented at the legislative level, is driven by the value of results versus cost-recovery. The funding method necessitates that leadership operates under an imperative to be cost-sensitive, examining all activities to ensure expense structures are optimized. The returned-value funding formula enables the flexibility to become business like and bottom-line focused.
- o Merged Operations. TSTC consolidated operations during the 2016/2017 biennium, creating a single structure for administering the operations of TSTC. The action achieved the targeted objectives of cost containment (mitigate redundant administrative overhead during expansion) and cost reductions, enabling funds to be redirected from redundancies to maximizing instructional operations.

#### Financial Health and Leverage

- o Funding History. Though TSTC is a mature institution, shaping a "New TSTC" creates financial pressures more consistent with a start-up venture. The College has

**71D Texas State Technical College - Waco**

---

experienced negative free cash flows (use of reserves rather than accumulation of reserves) during this transition period, with cash flows poured into investment in new locations and entrepreneurial pursuits, implementation of practices to address identified compensation issues, restructure and consolidation of operational functions, and investment in innovation.

Rating agencies have recognized that recent financial performance has thinned the College's reserve position, creating a smaller margin for error when it comes to funding strategic investments or paying for unexpected costs. TSTC's bond rating agencies credit the Legislature's substantial support of TSTC and TSTC's consolidation of administrative functions for increased efficiency and effectiveness of operations but look for increased revenues from new locations and stable funding from state appropriations in their scrutiny of TSTC's long-term creditworthiness.

o Infrastructure Funding. Two policy shifts emerged between the 84th and 85th Legislature relating to Infrastructure Funding for TSTC. First, the Texas Higher Education Coordinating Board Formula Advisory Committee recommended incorporation of the TSTC Space Support funding formula into the returned-value formula consistent with the Legislature's directive to further the goal of rewarding job placement and graduate earnings, not time in training or contact hours. Later, the Texas Higher Education Coordinating Board conducted a study of potential new Space Projection Models that influence the Infrastructure Formula Funding strategy. The findings of the new models show TSTC, by mission and design, is different than an academic institution. Specifically, TSTC's programs require both classroom space for lectures and laboratory space for the hands-on training. Students at TSTC spend as much as 60 percent of their time working with equipment in laboratory settings. Consequently, the findings projected an increase in the allocated funding for TSTC based on the model.

**Market Performance and Potential**

TSTC's operations are scattered across the Texas landscape, including a diversity of markets that vary in student demand and industry demand. Consequently, growth performance and potential vary across TSTC's various offerings. Newer operations are located in regions with growing demand while other locations have growth prospects that are more challenging due to population declines, lower density of populations, and other factors. According to the U.S. Census Bureau, Fort Bend County and Williamson County ranked 4th and 7th across the United States for percentage growth during 2014-2015. Ellis County was 39th. On the other hand, several campuses reside in counties with declining populations during the same period.

**60x30TX Higher Education Strategic Plan**

In 2015, the Texas Higher Education Coordinating Board announced the 60x30TX Higher Education Strategic Plan with the overarching goal of 60 percent of Texans ages 25-34 attaining a certificate or degree by 2030. TSTC's vision and values support the underlying imperatives within 60x30TX of increasing prosperity for Texans by training and retaining a globally competitive workforce. Indeed, TSTC's rallying cry since 2011 has been "Place More Texans in Great Paying Jobs."

**60x30TX Completion Goal.** TSTC pivoted its focus toward completion nearly a decade ago dramatically shifting its internal performance measurement at certain locations from enrollment to completion. This was validated by adoption of the returned-value funding formula, making placement and earnings the key economic drivers for TSTC. Consequently, TSTC has seen increasing performance with respect to the statewide goals for completion over the last five years. In that time, TSTC has increased the number of associate degrees and certificates awarded by 571 awards, a 27% increase.

**60x30TX Marketable Skills Goal.** With respect to the 60x30TX strategy for aligning marketable skills with programs, the Center for Employability Outcomes at TSTC is developing solutions that enable colleges to align curricula with the specific skill requirements of local employers. The Center's purpose is to maximize student employability and increase the supply of qualified graduates. To date, more than 1,300 courses across 83 awards and 26 colleges have been aligned. The Center is now in the process of launching a refined web application with greater capabilities and engaging Texas colleges for broader adoption. This work has been supported by the Texas Higher Education Coordinating Board and is an approved methodology for colleges to validate curriculum across Texas.

**Administrator's Statement**  
85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

**71D Texas State Technical College - Waco**

---

The fourth 60x30TX goal states that by 2030, undergraduate student loan debt will not exceed 60 percent of first-year wages for graduates of Texas public institutions. The total cost of education for TSTC graduates is extremely affordable, especially relative to the wages earned by its graduates. The average completer earns a salary of \$34,689 during his first year after graduation while his average student loan debt is \$7,059, or 20.3% of first year average earnings.

Bill Pattern Changes

o Working with the staff of the Legislative Budget Board and the Governor's Office of Budget and Planning, this LAR includes new bill patterns proposed for TSTC in Fort Bend and TSTC in North Texas. This reflects actions of the 84th Legislature which designated these two operations as Campuses. It also bolsters transparency and clarity regarding TSTC's funding structure.

BASELINE REDUCTION ADJUSTMENTS

The cumulative affect of the seven reductions across the statewide college is nearly \$1.2 million with the largest impact relating to the \$680,000 reduction of start-up funding for TSTC's newest locations (transition funding supports core teaching, learning, and student service functions, since it is a substitute for Formula Funding because TSTC's results-based formula does not reimburse start-up costs). Cutting the start-up funding at these highest potential locations accounts for nearly 60% of TSTC's overall reduction calculation statewide. Cutting services at these new locations would have a significant impact on TSTC's delivery of services. Consequently, responding to the reduction requires a statewide, strategic approach to mitigate the impact of the reductions to the State.

In this LAR, TSTC has reduced its baseline request in the following strategies:

- o Institutional Enhancement Special Item Support strategy for Harlingen, Marshall, Waco, and West Texas;
- o Start-Up Funding Special Item Support strategy for North Texas and Fort Bend;
- o Instruction/Operations System Office Operations strategy at System Administration.

TSTC's baseline reduction approach is similar to its ongoing budget approach. That is, TSTC will reduce programming/funding based on its appraisal of markets and related program performance and potential across the state. To mitigate the statewide impact of reductions, TSTC will invest first in programs and activities with the highest return potential. Based on the extent of cuts, TSTC will reduce or close services in its lowest performing and lowest potential markets to mitigate the impact of reductions to the returns on the State's investment.

The following reduction considerations would be required under the proposed reductions:

- o Continue reduction efforts for activities not essential to Place More Texans. For example, even though student recreation centers help provide a vibrant student life, TSTC might consider elimination of the activity to mitigate the reduction impact on providing a skilled workforce to Texas.
- o Suspend, or considerably change, the business model for dual credit offerings. TSTC partners with over 100 high schools in offering dual credit; however, it receives no appropriations support for the effort. The dual enrollment effort is extremely important to TSTC but it is an activity that requires significant resources of the College without the ability to recoup the costs.
- o Evaluate markets by recent performance and growth potential. Depending on the reduction request, TSTC would eliminate programming in areas that provide the lowest prospects for return on capital to the State.

EXCEPTIONAL ITEM FUNDING REQUESTS

**Administrator's Statement**  
85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

**71D Texas State Technical College - Waco**

---

Dual Credit – All Campuses. TSTC partners with more than 100 schools to offer dual credit at the secondary level without receiving appropriations funding for related offerings. Several factors led to the exclusion of dual credit from the returned value formula. Consequently, TSTC receives no appropriation for this training. Despite that, TSTC continued to offer dual credit programs with a specific emphasis on Career and Technical Education pathway programs. Funding is required to continue offering dual credit offerings.

Transition Funding Shortfall, Williamson County (System Administration (Waco) bill pattern). TSTC's participation in the multi-institutional teaching center requires subsidy from the other TSTC operations at nearly \$1 million per year to adequately operate program offerings at TSTC in Williamson County.

#### TSTC SYSTEM GOVERNANCE

TSTC is governed by a nine-person board of regents appointed by the Governor and confirmed by the State. Regents serve staggered six-year terms, with the terms of three members expiring in August of each odd-numbered year. The members of the board, their hometowns, and respective term dates are included within the organization chart submitted with this LAR.

#### DESCRIPTION OF TEXAS STATE TECHNICAL COLLEGE

TSTC was established more than 50 years ago and operates today as the state-supported technical college with teaching locations across Texas, including Abilene, Breckenridge, Brownwood, Fort Bend County, Harlingen, Marshall, North Texas, Sweetwater, Waco and Williamson County. As a coeducational two-year, multi-campus institution of higher education, TSTC provides innovative and responsive programs and courses of study in technical education for which there is demand in the State of Texas, with emphasis on advanced and emerging technologies.

Texas State Technical College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award associate degrees and Certificates of Completion. During the 2016/2017 biennium, TSTC consolidated four independently accredited colleges into a single, statewide accreditation structure. TSTC simultaneously merged substantially all operations into a statewide, consolidated, functional structure.

In response to mandates from the 82nd, 83rd, and 84th Legislatures, TSTC became the only college in Texas to adopt a funding model based entirely on student employment outcomes - aligning with its purpose of strengthening Texas with a highly skilled, technically competent workforce.

TSTC System Administration comprises certain functions of the College that are statewide support resources which are generally indirect in nature and shared across statewide operations. Through TSTC's commitment to education over administration, TSTC seeks for this to be a streamlined and efficient body leveraging the System Administration structure to eliminate redundancy throughout statewide operations.

#### BACKGROUND CHECKS

Criminal history record information is checked for employment applicants under final consideration, following normal screening and selection processes, for security sensitive positions. Security sensitive positions are restricted to those positions described in Texas Education Code § 51.215(c) and Texas Government Code § 411.094(a)(2). Security sensitive positions include those in which employees handle currency, have access to financial records, legal records, medical records, personnel records and student academic records, have access to a master key, or work in an area of the College which has been designated as a security sensitive area.

---

**71D Texas State Technical College - Waco**

---

All advertisements and notices released for security sensitive positions include the statement: "Security Sensitive Position." Upon selection of the best qualified candidate for the position, the candidate may be offered continued employment by the College contingent upon the evaluation of the criminal history record check. If the check produces a criminal record on the candidate, the Human and Organization Development Executive or his/her designee evaluate the record and work with the department head to determine if the employee should be recommended or not recommended for employment. All criminal history information on applicants is privileged and confidential and is not released or otherwise disclosed to any person or agency other than those persons involved in the hiring process with a legitimate need to know this information, except on court order.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

In the General Appropriations Act, HB 1, 84th Texas Legislature, Section 11 (page III-224), allocated funding under the Instruction & Operations strategy among Texas State Technical Colleges (TSTC) based on the additional direct and indirect state tax revenues generated as a result of the education provided. This formula furthers the goal of rewarding job placement and graduate earnings projections, not time in training or contact hours. This funding facilitates the provision of industry standard, state-of-the-art education and training in high priority careers.

The formula advisory committee elected to exclude dual credit and continuing education outcomes from the funding formula and determined it would continue to evaluate the appropriateness of their inclusion. In short, TSTC does not receive appropriations funding for dual credit and continuing education.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Texas businesses in key industries are unable to find enough sufficiently trained workers to fill available, middle-skill jobs (those which require credentials between high school and a four-year college degree). Consequently, many Texas employers are left unable to grow and innovate, restricting their ability to compete in the current economy. This growing need for workers in middle-skill occupations is concentrated in the STEM fields, TSTC's primary focus. According to the U.S. Census Bureau, McLennan County has experienced moderate population growth in recent years.

------	-------------	----------	----------	----------	---------	---------

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

This strategy is to provide proportional share of staff group insurance premiums paid from Other Educational and General funds.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Strategy is impacted by the number of employees working 30 hours or more and the premium rate. Strategy is based upon percentage of other E&G income to total appropriation. Tuition increases and reduced general revenue appropriations affect the expenditure requirements of this strategy.

There is a general revenue shortfall for group insurance; therefore, other strategies must supplement group insurance expenditures.

CODE	DESCRIPTION	Exp 2015	Est 2016	Bud 2017	BL 2018	BL 2019
------	-------------	----------	----------	----------	---------	---------

House Bill 1 (General Appropriations Act), 84th Legislature, Regular Session, Article III, Higher Education Coordinating Board, Section 55 (p. III-54), directed the Texas Higher Education Coordinating Board (THECB) to conduct a study of the Space Projection Model.

The study conducted in response to Rider 55 treated the allocation of space for TSTC different than other institutions evaluated by dramatically increasing the allocation of teaching space for TSTC. This was validated as necessary by a third-party consultant who noted the space-intensive nature for TSTC training programs, relative to other spaces considered in the model.

During its formula funding development process, the Texas Higher Education Coordinating Board Formula Advisory Committee recommended incorporating Space Support funding into the Returned-Value formula to, as directed by the Legislature, further the goal of rewarding job placement and graduate earnings, not time in training or contact hours.

**FULL TIME EQUIVALENT POSITIONS:**

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

This strategy is essential for the College to meet the annual debt service requirements for the Tuition Revenue Bonds issued throughout FY 2002 and FY 2008. The FY 2002 TRB issue was refinanced in FY 2016, lowering the debt service on that issue, thereby resulting in savings for the state.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

TRB funds have enabled the college to better serve the needs of our students in technical education.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Small Institution Supplement strategy provides \$750,000 during a biennium for institutions that enroll less than 5,000 students (phased out between 5,000 and 10,000), recognizing that institutions have a minimum cost of operation that may not be covered by funds generated through the formulas.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

The cost of will be covered by this funding. Buildings that have been recently remodeled will increase this cost in the next biennium.

(1) - Formula funded strategies are not requested in 2018-19 because amounts are not determined by institutions.

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The 76th Legislature created the initial Institutional Enhancement appropriation based on a consolidation of certain special item appropriations with inclusion of \$1.0 million per year to the strategy. This funding is an important source of funding for various E&G components.

For the 2018-2019 biennial budget, these funds will support educational support activities, instructional services, student services, and scholarships.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

In compliance with the June 30, 2016 Policy Letter, TSTC has reduced its baseline request. A reduction of \$86,932 for TSTC Waco is reflected within this strategy.

TSTC's baseline reduction approach is similar to its ongoing budget approach. It will consolidate the statewide reduction and reduce programming/funding based on its appraisal of markets and related program performance and potential across the state. To mitigate the statewide impact of reductions, TSTC will invest first in programs and activities with the highest return potential. Based on the extent of cuts, TSTC will reduce or close services in its lowest performing and lowest potential markets to mitigate the impact of reductions to the returns on the State's investment.

------	-------------	----------	----------	----------	---------	---------

As the formula advisory group assembled by the Texas Higher Education Coordinating Board evaluated TSTC’s new Instruction and Operations funding formula (the Returned Value formula), several factors led to the exclusion of dual credit from the returned value formula. Consequently, TSTC receives no appropriation for dual credit. Despite that, TSTC continued to offer dual credit programs with a specific emphasis on Career and Technical Education pathway programs.

Faced with baseline reductions, TSTC will assess the necessity to suspend, or considerably change, the business model for dual credit offerings since it receives no appropriations support for the effort. The dual enrollment effort is extremely important to TSTC but it is an activity that requires significant resources of the College without the ability to recoup the costs.

Exceptional Item funding for dual credit programs would allow TSTC Waco to continue and/or grow its dual credit programs.

**EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:**

Today, TSTC Waco partners with 30 schools to offer dual credit at the secondary level without receiving appropriations funding for related offerings.

**DESCRIPTION / JUSTIFICATION:**

As the formula advisory group assembled by the Texas Higher Education Coordinating Board evaluated TSTC's new Instruction and Operations funding formula (the Returned Value formula), several factors led to the exclusion of dual credit from the returned value formula. Consequently, TSTC receives no appropriation for dual credit. Despite that, TSTC continued to offer dual credit programs with a specific emphasis on Career and Technical Education pathway programs.

Faced with baseline reductions, TSTC will assess the necessity to suspend, or considerably change, the business model for dual credit offerings since it receives no appropriations support for the effort. The dual enrollment effort is extremely important to TSTC but it is an activity that requires significant resources of the College without the ability to recoup the costs.

Exceptional funding for dual credit programs would allow TSTC Waco to continue and/ or grow its dual credit programs.

**EXTERNAL/INTERNAL FACTORS:**

Today, TSTC Waco partners with 30 schools to offer dual credit at the secondary level without receiving appropriations funding for related offerings.

**DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :**

Faculty salaries are the largest component of the continuing costs. Also included in the estimate is instructional supplies used in servicing the dual credit student population. Technical programs (in which TSTC is focused) have a higher degree of supplies costs than academic courses.

**B. Assessment of Fiscal Year 2014 - 2015 Efforts to Meet HUB Procurement Goals**

**Attainment:**

The agency attained zero of six, or 0%, of the applicable statewide HUB procurement goals in FY 2014 and FY2015. However, the agency has increased its overall expenditures with HUBs each of the last five fiscal years. From 4.2 percent during FY2011 to 7.47 in FY2015.

**Applicability:**

The agency had expenditures in five of the six HUB categories for both in FY2014 and in all of the six HUB categories in FY 2015.

**Factors Affecting Attainment:**

- A portion of the goals showed a positive trend over the respective prior year in percent of total dollars spent on HUB contracts (5 of 6 in comparing FY 2014 to FY 2012, and also 5 of 6 in comparing FY 2015 to FY2013).
- The college routinely utilizes vendors that could qualify for HUB certification, but they have no direct incentive to complete the HUB certification steps. This creates a limited supply of "HUB certified" vendors.

**"Good-Faith" Efforts:**

The agency made the following good faith efforts to comply with statewide HUB procurement goals per 34 TAC Section 20.13(c):

- Developed and conducted training to internal departments regarding the HUB program and policies and procedures
- Promoted the use of HUBs with internal departments
- Attended various vendor fairs, demonstrations, and other events to learn more about HUB vendors
- Provided a purchasing/HUB overview to new employees during new employee orientation
- Meet with potential HUB vendors and encouraged them to apply for certification and showed them how to participate in the bidding process

**6.A. Historically Underutilized Business Supporting Schedule**  
85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

Agency Code: **71D**      Agency: **Texas State Technical College - Waco**

- Ensured that the TPASS HUB Electronic Database is accessible to all employees and encouraged use of the directory in procurement activities.
- Posted information to our website regarding the HUB Program and provided a link to apply for HUB certification

**Schedule 9: Special Item Information**  
85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

**71D Texas State Technical College - Waco**

---

**Special Item:**     1           **Institutional Enhancement**

**(1) Year Special Item:**           2000  
Original Appropriations:   \$1,796,114

**(2) Mission of Special Item:**

Though funded at 50% of its original allocation, this funding is an important source of funding for various E&G components. For the 2018-2019 biennial budget, these funds will continue to support essential educational support activities, instructional services, student services, and scholarships.

**(3) (a) Major Accomplishments to Date:**

Educational support: Increased investment in student outreach services resulting in higher levels of prospect to registered students.  
Instructional support: Deployment of faculty development across statewide campuses with emphasis on new faculty bootcamp, multi-level instructor certification courses, department chair training, competency based education training, and online learning courses and assistance.  
Institutional Research Tools: Implementation of data research and visualization tools increasing business intelligence/analysis capabilities.  
Educational Services: Increased capacity of success coach program to increase persistence/retention of students.  
Scholarships: Increased scholarship assistance statewide.  
Deaf & disabled services: Continued services for deaf and disabled students.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Instructional Support: Increased development for faculty, improving and innovating the student learning experience.  
Institutional Research: Improved effectiveness and productivity of student learning through available dashboards, insights, and analysis.  
Educational Support: Increasing persistence and retention levels facilitated by improved student support services as well as increased capacities.

**(4) Funding Source Prior to Receiving Special Item Funding:**

The 76th Legislature created Institutional Enhancement (IE) to consolidate Special Items (including scholarships, instructional services, plant expansion, new plant start-up, and deaf services).

**(5) Formula Funding:**

N

**(6) Startup Funding:**

N

**(7) Transition Funding:**

N

**Schedule 9: Special Item Information**  
85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

**71D Texas State Technical College - Waco**

---

**(8) Non-general Revenue Sources of Funding:**

None.

**(9) Consequences of Not Funding:**

Reduced capacity for Instructional and Educational Support. Due to core nature of services supported by Institutional Enhancement funds, funding reductions or eliminations would be evaluated statewide across funding categories. Most likely consequences of lower funding will be reduced programming, specifically in areas that are considered low-performance, low-potential.

---

**Schedule 9: Special Item Information**  
85th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

**71D Texas State Technical College - Waco**

---

**Special Item:**     2           **Dual Enrollment**

**(1) Year Special Item:**           2018  
Original Appropriations:   \$200,000

**(2) Mission of Special Item:**

Assist the 1,247 school districts across Texas with the incorporation of the Career and Technical Education sequenced pathways mandated by the 83rd Legislature’s House Bill 5. TSTC is able to meet these needs for many school districts statewide. Today, TSTC has dual credit partnerships with nearly 100 school districts statewide.

**(3) (a) Major Accomplishments to Date:**

Partnered with 30 school districts in delivery of dual credit.

Creation of compressed sequences, shortening road to TSTC graduation and entry to Texas workforce in a shorter time frame, ensuring qualification to meet the workforce demands.

Expanded reach of service through direct, smooth and transitionless online dual credit offerings addressing CTE/Career Cluster occupations and needs in high demand TWC identified occupations. This provides access to these pathways electronically, regardless of available faculty or staff on the ISD campus.

For technical pathways requiring face-to-face format for hands-on training (e.g., Welding and Automotive) delivery is made by credentialed and qualified ISD faculty.

Created crosswalk for technical pathways between the The Public Education Information Management System standards (PEIMS), allowing the districts to meet standards regardless of available, qualified faculty or staff.

Where feasible, facilitate student travel to local TSTC campus to access technically qualified staff.

Participated with the Advanced Technical Credit (ATC) Leadership Committee, a committee of high school community/technical college representatives, in setting the criteria for ATC dual credit across the state, with input from TEA and THECB.

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

Expand to 200 school district partnerships, statewide (depending on funding).

Create statewide centers of excellence, providing scaling capability to meet statewide needs.

Expand number of HB 5 mandated CTE pathways offered.

Expand number of students graduating on a distinguished level (through completed foundation plan endorsements).

None.

**(9) Consequences of Not Funding:**

Significant reduction to dual credit offerings and increased costs to high school students for tuition revenue to be charged.
