In accordance with the instructions, Texas State Technical College (TSTC) submits the following Legislative Appropriations Request (LAR) for fiscal years 2022 and 2023 to the Governor's Office of Budget, Policy, and Planning and the Legislative Budget Board. TSTC's LAR is submitted in a manner consistent with the description of TSTC in Section 135.02 of the Texas Education Code, including a LAR for the System Administration unit and the College's six campus bill patterns.

OVERVIEW

Texas State Technical College (TSTC or the College) is the State of Texas' leading provider of two-year technical education in industries critical to the State's long-term sustainable growth. As the one Texas institution whose primary funding is driven solely from the success of its students in the workplace, TSTC is an essential partner to industry as Texas faces the threat of a long-emerging trade and industrial skills gap. As the State rebounds from the COVID-19 induced recession, the College will serve at the front lines of the economic recovery. With this in mind, the College is steering all resources of the 10-campus, statewide institution towards building and maintaining a globally competitive workforce for Texas business and industry.

To support this statewide mission, TSTC operates campuses in Abilene, Breckenridge, Brownwood, the East Williamson County Higher Education Center (in Hutto), TSTC in Fort Bend County (in Rosenberg), Harlingen, Marshall, TSTC in North Texas (in Red Oak), Sweetwater, and Waco. With these ten campuses across Texas, TSTC is set to place over 6,000 graduates in great paying jobs over the next biennium (2022-2023).

In the spring of 2020, the COVID-19 pandemic and related shutdown triggered a disruption with devastating consequences for much of higher education and, consequently, is referenced throughout TSTC's response to the issues featured in the Administrator's Statement instructions, including Policy Changes, Changes to Provisions of Service, Externalities, New Funding Requests, and TSTC's Approach to Baseline Reductions established by the Policy Letter.

SIGNIFICANT CHANGES IN POLICY

The pandemic-driven recession and subsequent consumer lockdown came quickly and relentlessly. So, too, did the calamity of historically low oil prices. The resulting economic and societal turbulence increased the focus of potential students on skills-based, short-term credentials that are clearly tied to careers. Fortunately, TSTC's unique mission, funding and operating structures focus the institution on the employability of its former students. As a result, two relevant policy issues are presented with this legislative appropriation request.

Accountability Funding. While there will be new and emerging occupational skills resulting from the pandemic, in general, the industries and occupations that TSTC supplied prior to the pandemic will continue to drive the economy in 2022 and 2023. TSTC's student employability-based funding structure couldn't be more relevant as Texas and the nation emerge from the current recession. TSTC's accountability funding fuels the talent supply chain key to the economic recovery. Maintaining TSTC's funding, or "commission" rate reaffirms accountability funding policy; one that aligns the interests of TSTC, its students and the employees of Texas. Figure 1 illustrates the historical funding pattern for TSTC's primary funding source, the instruction and administration formula funding (a wholly accountability-based funding strategy).

Insufficient Student Aid for Rapid Response Solutions for Unemployment Surge. Student aid systems do not have the flexibility to support fast-to-work solutions necessary to address the sudden unemployment surge brought on by the pandemic and economic shutdown. Conventional student aid mechanisms are built on the premise that more time in class results in more value for students. That conventional premise often does not serve students, employers or taxpayers well. TSTC developed several new products to provide solutions to the rising numbers of unemployed workforce. These programs target essential skills to rapidly return unemployed and underemployed Texans back into the workforce. A major challenge for these programs is the lack of available financial aid for a target market with the highest financial need.

719 Texas State Technical College System Administration

SIGNIFICANT CHANGES IN PROVISION OF SERVICE AND SIGNIFICANT EXTERNALITIES

Social Distancing. The COVID-19 pandemic and the related shutdown triggered a disruption that had devastating consequences for much of higher education. Public colleges and universities across the nation spent enormous sums of money to support their students through the pandemic, switching to online education and issuing refunds or losing significant revenues related to parking, housing and dining services.

Social distancing requirements significantly affected TSTC's operations but several factors allowed the College to mitigate some of the disruptive impact ushered in by the pandemic. Most of TSTC's programs are classified as critical or essential, so these programs were exempted from the broad school closure requirements. Some of the instructional delivery could shift online but the majority of TSTC's programs require a face-to-face modality due to their hands-on nature. TSTC converted the vast majority of instructional delivery to a socially-distant, safe format and resumed on-campus instruction in early May 2020. Then, the college successfully completed the Spring 2020 semester and continued safety protocols into the Summer 2020 and Fall 2020 semesters.

The requirements for this safer, socially-distant delivery significantly constrain teaching capacities, including lab space, equipment, and faculty. Students and faculty are required to spread out, increasing the amount of space required to teach. To mitigate these new constraints and teach the same number of students, TSTC must shift schedules, repurpose space, increase teaching time, and add equipment. Figures 2 and 3 illustrate this converted teaching modality as well as the increased constraints on capacities.

Recession-driven Enrollment Surge Trend. In each of the three previous recessions, total community and technical college enrollments increased significantly at the beginning of the recession. Younger, unskilled workers are typically among the first to lose their jobs in a recession and contribute to the waves of enrollment that follow a recession. The COVID-19 recession is unique, and may have a unique enrollment response due to student health concerns and recovery phases unlike other recessions. TSTC is shifting all resources of the College to manage through new social-distancing constraints to optimize its response to different enrollment surge scenarios.

PURPOSE OF FUNDING REQUESTS

TSTC's funding requests focus on maintaining or expanding instructional capacities necessary to address the growing trade skills gap for Texas.

Policy Letter Requirements Response. TSTC received the LBB and Governor's Office approved General Revenue/General Revenue-Dedicated Limits shortly after release of the Policy Letter, reducing non-exempt funding sources by 5 percent. The approach to meeting the requirements of the Policy Letter is similar to TSTC's ongoing fiscal management strategy. TSTC continuously directs capital to the highest performing programs that possess the highest market opportunity and cuts capital allocations to its lowest performing programs with the least market opportunity. The base reduction strategy disproportionately cuts programs that reside in the highest market opportunity since the reduction is applied to start-up funding (a proxy for formula funding because of the lag in TSTC's performance-based funding formula). Start-up funding exists for TSTC's newest programs that were located in the regions with the highest needs for skills.

On a routine basis, the College curates its inventory of programs to ensure investment is directed to those that are high performing and to ensure that low performing programs are closed out. Similarly, non-instructional operations are vetted for relevance, impact and performance with personnel and funding allocations directed to those that perform at the highest level. Consequently, TSTC's strategy for addressing funding reductions would include assessment of expenditures statewide and would target programs, campus locations, or departments with lowest production, impact or relevancy to the future needs of the College.

EXCEPTIONAL ITEMS

Restoration of Start-Up & Other Funding. The approved General Revenue/General Revenue-Dedicated Limits reduced nonexempt funding categories by 5 percent. This reduction impacted system office operations as well as important allocations for workers comp, forecasting and curriculum development, and technical training partnerships.

Start-Up funding is necessary to fund new locations under TSTC's performance-based Instruction & Administration (I&A) formula. Since the I&A formula is only funded after former students participate in the workforce for five years, the delay in funding start-up campuses is 8-10 years. Fiscal Year 2020 was the first year that the campus realized funding from the performance of its students. This funding will continue ramping up consistent with the growth of the original cohorts of students.

Tuition Revenue Bonds. As Texas emerges from the recession ushered in by the COVID-19 pandemic and the related shutdown, Texas employers will increasingly generate demand for skilled technicians and tradesmen. This demand is expected to grow for the next few decades. However, over recent decades, the supply of skilled labor has historically been insufficient to meet the needs of Texas employers. This is especially true for heavy industrial workforce gaps. COVID-19 and the related social distancing protocol exacerbated this supply issue by significantly constraining the facility capacity for these programs.

TSTC System Administration, on behalf of TSTC in Hutto (East Williamson County Higher Education Center), seeks to add or recapture lost instructional capacity by constructing 113,000 square feet of flexible, industrial technology training facilities. This multidisciplinary space will accommodate a versatile training modality suitable for traditional and performance-based education. This space will be able to meet immediate demand in the areas of welding, electrical power and controls, and architectural/mechanical drafting, but will be flexible to accommodate changes in the labor market to meet the needs of employers for decades to come.

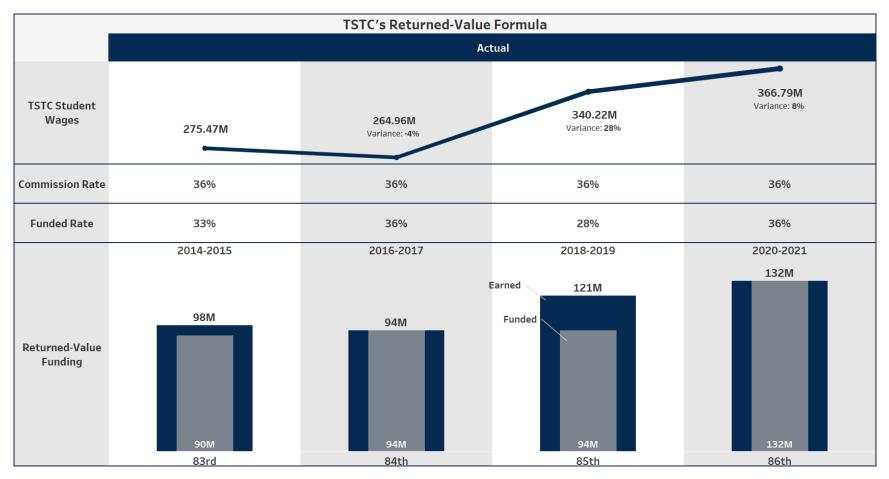

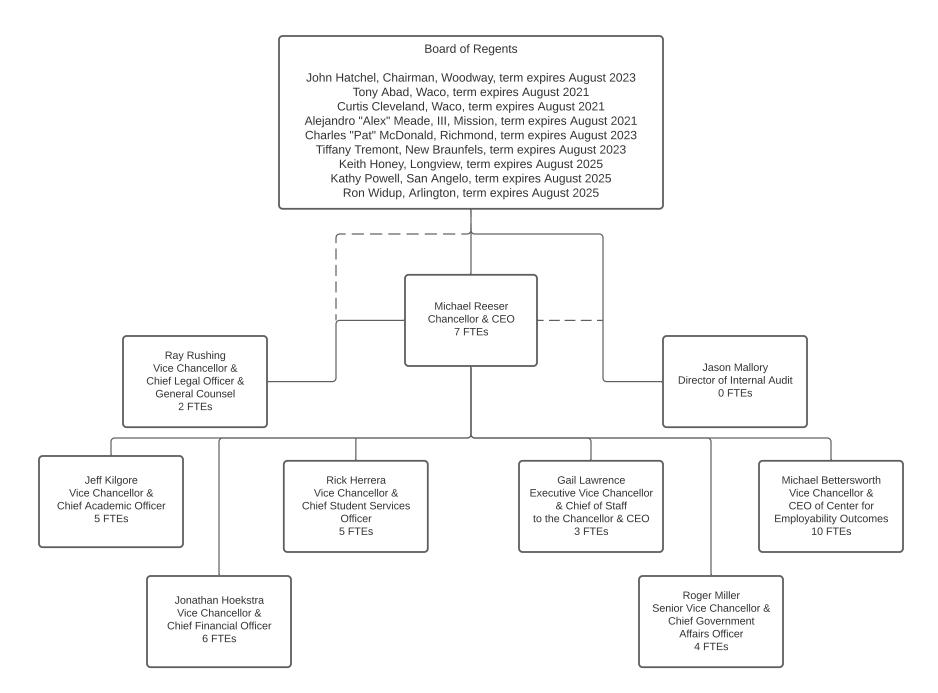

Figure 2:

CERTIFICATE

Agency Name Texas State Technical College

This is to certify that the information contained in the agency Legislative Appropriation Request filed with the Legislative Budget Board (LBB) and the Governor's Office Budget Division (Governor's Office) is accurate to the best of my knowledge and that the electronic submission to the LBB via the Automated Budget and Evaluation System of Texas (ABEST) and the PDF file submitted via the LBB Document Submission application are identical.

Additionally, should it become likely at any time that unexpended balances will accrue for any account, the LBB and the Governor's Office will be notified in writing in accordance with Article IX, Section 7.01 (2020–21 GAA).

STRATEGY:	2 Forecasting and Curriculum Development			Service: 19	Income: A.2	Age: B.3
OBJECTIVE:	1 Provide Instructional and Operations Support			Service Categori	les:	
GOAL:	1 Provide Instructional and Operations Support					

STRATEGY DESCRIPTION AND JUSTIFICATION:

TSTC's work in Forecasting and Curriculum Development is directly tied to a statutory mandate for TSTC to forecast technical training and education needed to maintain and improve the state's economic and technological competitiveness. In support of this mandate, TSTC created the Center for Employability Outcomes (C4EO) to improve the employability of students by aligning curriculum with industry needs. As a result, more students will graduate with necessary skills and more employers will be able to find and hire the right talent to remain competitive. The Center provides students, colleges and businesses with job-driven tools to scientifically optimize alignment of curricula to labor market needs.

The Center's work is closely coordinated with the Texas Workforce Commission, Texas Higher Education Coordinating Board, and Texas Education Agency through complementary strategies. The Center is now implementing the use of detailed work activities to align curriculum within three areas: technical competencies (hard skills), workplace competencies (soft skills), and labor market needs. By increasing student placement and earnings outcomes, the Center's work leads to improved economic returns for students, industry, Texas and its taxpayers. The Center continues to expand outreach to additional colleges with support from the THECB.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

The demand for skilled labor is growing due to rising incumbent worker retirements (baby boomers), global competition in the labor market, and technology advances across industry sectors. Aligning technical education curriculum with the needs of the labor market will increase student employability and result in higher economic returns to the private and public sector, and bridge the competency needs of industry.

OBJECTIVE:	1 Provide Instructional and Operations Support	ovide Instructional and Operations Support			ies:	
GOAL:	1 Provide Instructional and Operations Support					

STRATEGY DESCRIPTION AND JUSTIFICATION:

This strategy is to provide proportional share of staff group insurance premiums paid from Other Educational and General funds.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Strategy is impacted by the number of employees working 30 hours or more and the premium rates. Strategy based upon percentage of estimated other E & G income to total appropriation. There is a general revenue shortfall for group insurance; therefore, other strategies must supplement group insurance expenditures.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Section 135.27 of the Education Codes state that the System Central Administration Office shall provide oversight and coordination of the activities of each component of the system. The administrative functions across the ten TSTC campus locations operate under a single, statewide administrative structure, which enhances efficiency and standardization, and also reduces redundancy of administrative functions.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Measures are continuously taken to consolidate statewide activities and create efficiencies in administrative functions where possible.

TOTAL, METHOD OF FINANCING	\$2,903,246	\$2,903,246

DESCRIPTION / JUSTIFICATION:

TSTC in Williamson County requests funding to add or recapture lost instructional capacity by constructing 113,000 square feet of flexible, industrial technology and skilled trade training facilities. This space will be able to meet immediate demand in the areas of welding, electrical power and controls, and architectural/mechanical drafting, but will be flexible to accommodate changes in the labor market to meet the needs of employers for decades to come. Tuition Revenue Bond Issuance Authority in the amount of \$33,300,000 is requested by TSTC in Williamson County for this instructional facility. State funding is requested for projected debt service payment of \$2,903,246 for the FY 2022/2023 biennium. This is based upon an amortization of 20 years at 6.00%

EXTERNAL/INTERNAL FACTORS:

Consequences of not funding: Reduced capacity for reducing Texas' technical skills shortage.

B. Assessment of Fiscal Year - Efforts to Meet HUB Procurement Goals

Attainment:

The agency attained zero of six, or 0%, of the applicable statewide HUB procurement goals in FY 2018 and FY2019. The increase between FY 18 to FY 19 of total percentage spent with HUB.

Applicability:

The agency had expenditures in all categories in both fiscal year.

Factors Affecting Attainment:

A. Fiscal Year - HUB Expenditure Information

•The college routinely utilizes vendors that could qualify for HUB certification, but they have no direct incentive to complete the HUB certification steps. This creates a limited supply of "HUB certified" vendors

"Good-Faith" Efforts:

The agency made the following good faith efforts to comply with statewide HUB procurement goals per 34 TAC Section 20.13(c):

•Developed and conducted training to TSTC community regarding HUB program, policies, and procedures

•Attended various vendors fairs, and other events to learn more about HUB programs

•Attended HUB discussion meetings to keep up with HUB Rules and Regulations

•Educated potential HUB vendors to apply for certification with the state

•Educated ESBD is accessible to use for bidding processing

•TSTC is seeking new ways to education the College community on the benefits of doing business with HUBs

113,000	79,100			

Project Description

As Texas emerges from the recession ushered in by the COVID-19 pandemic and the related shut-down, Texas employers will increasingly generate long-term demand for technicians in skilled and heavy industrial trades. However, over recent decades, the supply of skilled labor has historically been insufficient to meet the needs of Texas employers. New social distancing protocols are now exacerbating this supply issue by significantly constraining the facility capacity for these high demand programs. TSTC in Williamson County seeks to add or recapture lost instructional capacity by constructing 113,000 square feet of flexible, industrial technology and skilled trade training facilities. This space will be able to meet immediate demand in the areas of welding, electrical power and controls, and architectural/mechanical drafting, but will be flexible to accommodate changes in the labor market to meet the needs of employers for decades to come.

Schedule 8B: Tuition Revenue Bond Issuance History

87th Regular Session, Agency Submission, Version 1

Automated Budget and Evaluation System of Texas (ABEST)

Authorization Date	Authorization Amount	Issuance Date	Issuance Amount	Authorized Amount Outstanding as of 08/31/2020	Proposed Issuance Date for Outstanding Authorization	Proposed Issuance Amount for Outstanding Authorization
2002	\$10,880,000	Nov 14 2002	\$10,880,000			
		Subtotal	\$10,880,000	\$0		
2005	\$3,125,000	Jul 8 2008	\$3,125,000			
		Subtotal	\$3,125,000	\$0		
2016	\$41,740,000	Apr 28 2016	\$41,740,000			
		Subtotal	\$41,740,000	\$0		

1 - Technical Training Partnerships with Community College

(1) Year Non-Formula Support Item First Funded:	2000
Year Non-Formula Support Item Established:	2000
Original Appropriation:	\$250,000

(2) Mission:

To fund partnerships between TSTC and community colleges to increase access to technical education programs in high demand areas of the state.

(3) (a) Major Accomplishments to Date:

TSTC has successful partnerships with various colleges across the State. Partnerships have proven to be a very efficient, effective, and expedient means of providing high-demand technical education across Texas. Since FY16 and FY17 funds have been allocated to East Williamson County Higher Education Center (EWC) where TSTC Waco is in partnership with Temple College and Texas A&M University-Central Texas.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

For FY 2022 & FY 2023 these funds will be used at the East Williamson County Higher Education Center. These funds are used in maintaining existing partnerships and planning new partnerships with the state's community colleges.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding: None

(6) Category:

Instructional Support

(7) Transitional Funding: N

(8) Non-General Revenue Sources of Funding:

None

(9) Impact of Not Funding:

Significant reduction in ability to provide additional access to technical education programs in high-demand areas of the state.

(10) Non-Formula Support Needed on Permanent Basis/Discontinu

This item will be needed on a permanent basis.

(11) Non-Formula Support Associated with Time Frame:

This item is not associated with a particular time frame.

(12) Benchmarks:

TSTC is an active participant in the THECB 60x30 strategic plan, which provides an excellent source of external benchmarks. TSTC is continually monitoring progress toward planned goals, and has achieved early success on several key benchmarks. TSTC is actively working on improving the number and rate of students with a certification, which are the primary goals of the THECB 60x30 strategic plan.

(13) Performance Reviews:

Student success is continually reviewed throughout the fiscal year with the use of an increasing number of analytic tools. These reporting tools provide a view of the student lifecycle, from application to working in Texas. While different departments are focused on various sections of the student lifecycle, the reporting tools enable all areas to be continually refined and improved throughout the year. Each semester program review reports are created for college stakeholders to continually monitor performance and to identify potential areas of improvement.

2 - Forecasting and Curriculum Development

(1) Year Non-Formula Support Item First Funded:	2006
Year Non-Formula Support Item Established:	2006
Original Appropriation:	\$250,000

(2) Mission:

Advance the employability of college students and the economic competitiveness of Texas by forecasting technical competencies needed by employers.

(3) (a) Major Accomplishments to Date:

Creation of statewide detailed work activity (DWA) skills library and curriculum alignment tool for use by colleges, which has resulted in alignment of hundreds of community college courses. Approval by THECB for use by colleges to validate curriculum learning outcomes. Secured matching funds through additional grants and contracts. New high-tech degree programs and courses resulting from statewide studies and reports on emerging occupations for Texas colleges.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Operationalizes workplace competencies (soft skills) with technical competencies (hard skills) to increase retention and improve overall employability of graduates. Expand curriculum alignment platform to more Texas colleges. Integrate detailed work activity model into secondary CTE courses to promote seamless transitions into college courses. Expand national use of DWAs through licensing options.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

Perkins Leadership Grant

(5) Formula Funding: None

(6) Category:

Research Support

(7) Transitional Funding: N

(8) Non-General Revenue Sources of Funding:

Contract Fees paid by other colleges for the service.

(9) Impact of Not Funding:

Employers would be less able to find qualified candidates for technical positions in critical industry clusters, thus undermining the economic competitiveness of Texas.

(10) Non-Formula Support Needed on Permanent Basis/Discontinu

At this time this item will be needed on a permanent basis.

(11) Non-Formula Support Associated with Time Frame:

This item is not associated with a particular time frame.

(12) Benchmarks:

The number of Texas institutions utilizing the service over time would be an adequate benchmark for this item to demonstrate the far reaching effects of the state 's investment.

(13) Performance Reviews:

Institutions utilizing the service could continually be asked for feedback and for ways in which the service has produced positive results for their institution.

3 - Williamson County New Campus Site Phase II

(1) Year Non-Formula Support Item First Funded:	2022
Year Non-Formula Support Item Established:	2022
Original Appropriation:	\$2,903,246

(2) Mission:

As Texas emerges from the recession ushered in by the COVID-19 pandemic and the related shut-down, Texas employers will increasingly generate long-term demand for technicians in skilled and heavy industrial trades. However, over recent decades, the supply of skilled labor has historically been insufficient to meet the needs of Texas employers. New social distancing protocols are now exacerbating this supply issue by significantly constraining the facility capacity for these high demand programs. TSTC in Williamson County seeks to add or recapture lost instructional capacity by constructing 113,000 square feet of flexible, industrial technology and skilled trade training facilities. This space will be able to meet immediate demand in the areas of welding, electrical power and controls, and architectural/mechanical drafting, but will be flexible to accommodate changes in the labor market to meet the needs of employers for decades to come.

(3) (a) Major Accomplishments to Date:

TSTC is the State of Texas' leading provider of two-year technical education in industries critical to the State's long-term sustainable growth, and TSTC is an essential partner to industry as Texas faces the threat of a long-emerging trade and industrial skills gap. As the State rebounds from the COVID-19 induced recession, the College will serve at the front lines of the economic recovery. With this in mind, the College is steering all resources of the 10-campus, statewide institution towards building and maintaining a globally competitive workforce for Texas business and industry.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The addition of multidisciplinary teaching space will accommodate a versatile training modality suitable for traditional and performance-based education. This space will increase capacity to meet immediate workforce needs in high-demand technical industries, but will be flexible to accommodate changes in the labor market to meet the needs of employers for decades to come.

(4) Funding Source Prior to Receiving Non-Formula Support Funding:

None

(5) Formula Funding: None

(6) Category:

Instructional Support

(7) Transitional Funding:

Ν

(8) Non-General Revenue Sources of Funding:

Funding from local community and industry to be sought to assist with start up operational cost and instructional equipment.

(9) Impact of Not Funding:

Reduced capacity for reducing Texas' technical skills shortage.

(10) Non-Formula Support Needed on Permanent Basis/Discontinu

TRB Debt Service

(11) Non-Formula Support Associated with Time Frame:

20 year TRB Debt Service

(12) Benchmarks:

N/A

(13) Performance Reviews:

N/A
